

**LED PANELS, FRAMES, AND LIGHTING BOXES
ACCESSORIES Mounting Options and Connectors:**

"J" CHANNEL:

The "J" Channel is a good option for installing the Acrylic Light Panels.

"Z" CLIP:

The "Z" Clip comes in 2 parts. One goes on the light box or light panel, and the other goes on the wall. With "Z" clip, the installation is very easy.

TWO PART "Z" CLIP

ONE PART INSTALLED ON THE WALL

SECOND PART INSTALLED ON THE LIGHT BOX

LIGHT BOX HANGING ON "Z" CLIP

HANGING HARDWARE:

We can put Hanging Hardware on most of our products. It's very reliable, and it's a very easy system to use.

HANGING WIRE AND THE LOCKING BRACKET.
INSERT WIRE TO THE BRACKET TO LOCK.
PUSH DOWN TO RELEASE.

"Y" CONNECTOR:

Connects 2 LED panels or light boxes to one power supply. Please consult with our technical team to make sure this connector can be used for your application.

3-WAY CONNECTOR:

Connects 3 LED panels or light boxes to one power supply. Please consult with our technical team to make sure this connector can be used for your application.

4' LOW VOLTAGE EXTENSION:

It's used to connect a light panel or light box to a power supply away from it. For longer wires, please call.
