PROJECT

SPEC TYPE

NOTES

GENERAL INFORMATION:

A beautifully slim recessed fixture, the MILLI DOUBLE by BYIBA combines elegant design with high performance. With just 0,59" of thickness, it's ideal for installations where depth is limited, yet lighting requirements remain high. If you need a recessed light that makes a statement while remaining discreet, this model is a strong choice. Its double light windows deliver brighter illumination, while the overall form stays remarkably minimal. Perfect for modern interiors—residential or commercial—where architectural cleanliness matters. The paintable CRISTALY® frame also lets you integrate the fixture seamlessly into your ceiling or wall finishes.
