PROJECT

SPEC TYPE

NOTES

GENERAL INFORMATION:

The Milli is an ultra-slim recessed ceiling/wall light designed for spaces where minimal depth is essential. With only 0,59" thickness, this fixture combines high performance LEDs, a premium diffusing plate, and a CRISTALY® frame with precision fixing wings to deliver clean, stable lighting even in tight installations. Rich in design and performance, this fixture allows you to maintain a clean, minimal aesthetic without compromising on light quality. The paintable CRISTALY® finish ensures the fixture can blend seamlessly with ceilings or walls when decorated with water-based paint. Its low profile makes it perfect for retrofit or new builds where space above drywall is tight. Whether for homes, offices, galleries or commercial interiors, it offers both flexibility and elegance.

MATERIAL:

CRISTALY®

FINISHING:

White / Paintable
