NOTES

GENERAL INFORMATION:

The Nuvò Cubo by BYIBA is an elegant ceiling-plafond fixture, designed to deliver refined direct lighting in modern interiors. Crafted with care in Italy using CRISTALY®, this piece blends minimalist aesthetics with durable materials for both residential and commercial settings. Nuvò Cubo is designed for spaces where you want lighting with character yet a clean, geometric form. Its cubic silhouette integrates seamlessly into both modern and transitional settings. Because it's surface mounted, it's ideal where installation of recessed fixtures is impractical. The ability to customise finish gives it versatility in projects that demand design coherence.
