NOTES

GENERAL INFORMATION:

The Banister Big is a modern ceiling light designed to add architectural elegance to any interior. Made from CRISTALY®, this square luminaire features twelve recessed spotlights arranged in individual compartments, providing a balanced and uniform light emission. The direct downward light ensures excellent illumination while maintaining a refined and minimal appearance. Handmade in Italy, this fixture is paintable, allowing seamless blending with any décor style. It is designed for ceiling surface installation, uses GU10 LED bulbs (max 5 W each), operates at mains voltage (110-120 V, 50/60 Hz), and has an IP20 protection rating. Ideal for residential or commercial spaces where a modern, customizable lighting solution is required
