NOTES

GENERAL INFORMATION:

The LARIA SMALL ceiling-mounted fixture is a compact and versatile lighting solution crafted from durable Cristaly®. Its reduced size makes it ideal for installations where a discreet architectural presence is desired without compromising performance. With a white, paintable finish, it can seamlessly blend into the ceiling surface or be customized to match surrounding design schemes. Designed for GU10 light sources (max. 10W), it delivers efficient and focused illumination, making it perfect for residential, retail, and hospitality applications where space-saving and aesthetic integration are key.
