GENERAL INFORMATION:

BYIBA Lonia XL (BY-2541-PL) Wall Light — a sleek, minimal wall sconce crafted from premium CRISTALY®, designed to diffuse light both upward and downward for a gentle, ambient glow. The cylindrical body conceals the light source while casting elegant light effects on the wall, creating subtle shadows and refined illumination. Its dual light emission makes it ideal for hallways, living spaces, or contemporary interiors where design and atmosphere matter. The Lonia XL brings together minimalist design, quality craftsmanship and versatile lighting to enhance home or commercial spaces with understated elegance.
