

BEAN COLLECTION (BOLLARD)

The BEAN COLLECTION is a family of outdoor bollard luminaires defined by its distinctive “Bean” form, where a rounded top is sculpted to create a clean, integrated light opening. Designed by Alberto Ghirardello, the concept is based on subtraction, combining a soft organic shape with a functional cut that houses the LED source and directs the light. Made from high-performance BETALY®, these fixtures are durable, weather-resistant, and designed to blend naturally into outdoor environments. Available in multiple sizes (A, B, C), the collection offers flexibility for pathways, gardens, and architectural landscapes while creating elegant, atmospheric lighting.
