

LEVICO COLLECTION (BOLLARD)

The LEVICO COLLECTION outdoor bollard lights are inspired by the idea of a mountain spring, where the light source is hidden and subtly revealed through the form of the fixture. The illumination flows through the body of the lamp, creating soft hollows and gentle diffusion effects that enhance its sculptural design. Made as handcrafted, eco-friendly lighting elements, they are designed to blend naturally into outdoor environments. Ideal for gardens, terraces, and pathways, they create an elegant and atmospheric lighting experience in exterior spaces.
