The OOLITE Terra is a minimalist outdoor path light designed to illuminate and define walkways and transit areas with subtle elegance. Its iconic rounded head combined with a diffuser creates a soft 180° grazing light, enhancing visibility while maintaining a clean, contemporary aesthetic. Inspired by the form of a floating water lily, the fixture appears to hover in space, becoming both a functional and decorative element in outdoor environments. Handcrafted in Italy from durable, eco-friendly materials, it is ideal for modern landscaping projects such as gardens, terraces, and pathways.
