

PASSO (BOLLARD)

The PASSO is an outdoor pathmarker inspired by the shape of classic theatre lights, combining expressive design with functional illumination. It not only lights the surrounding space but also enhances the forms and atmosphere within its beam of light. The structure is made from durable BETALY® material, giving it a solid presence while contrasting with the lightness of its glowing spherical diffuser. Designed for gardens, terraces, and outdoor pathways, it creates an elegant and atmospheric lighting effect in exterior environments.
